Leonardo da Vinci was one of the most talented people to have lived. Leonardo da Vinci was born on April 15,1452 and died on May 2,1519. He was Italian. Leonardo da Vinci is perhaps best known as a painter, with his legendary works including the Mona Lisa, the Vitruvian Man and the Last Supper, among others. Leonardo da Vinci wasn't just an incredible artist, he was an inventor, scientist, mathematician, engineer, writer, musician and much more.

His conceptual drawings included musical instruments, war machines, calculators, boats and other ideas. Many of them were limited by the level of technology at the time. Flight was of particular interest to Leonardo da Vinci. He studied the flight of birds and created plans for flying machines that are similar to gliders and helicopters.

The Mona Lisa is perhaps the most well-known painting in the world. It is believed that Leonardo da Vinci began painting the Mona Lisa around 1503. It has been on display at the Louvre Museum in Paris for over 200 years.
